MR. DUCKETT

Carl:

Attached is a copy of the new DDI Organization Chart sent to you by Ed Proctor. It appears to me to be somewhat misleading by putting the DDS&T into this Chart. The uninitiated might get the idea that DDS&T is just an appendage of the DDI. I presume the idea is to relate the production functions of OSI/FMSAC and its association with DDI as well as IRS supporting DDI and DDS&T. However, something has been lost in the translation.
